Experience and Knowledge at work for you

HELPING YOU WITH YOUR PROCESS/PRODUCT DEVELOPMENT

FiMatCon is a consulting firm specializing in hydrometallurgy, mineral processing and fine particle technology. Our mission is to help our clients with their process development and to provide them with unique solutions for their process/product development.

We have more than 65 years of combined experience in

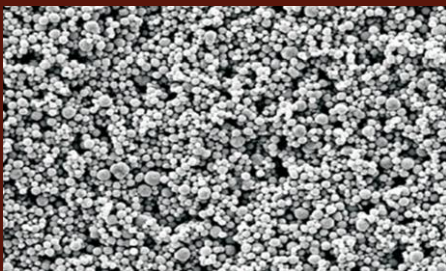

- Hydrometallurgy and mineral processing
- Fine particle technology for precious, base metals, oxide, and hydroxide
- Post processing including but not limited to
 - Solid-liquid separation,
 - Particles coating,
 - Organic or aqueous dispersions
- Core-shell materials

Tailored training sessions

To fulfill industry needs FiMatCon develops tailored training sessions for operational, managerial staff, researchers etc to improve skills and to accomplish effectiveness. Sessions are conducted as required, in classroom-base and/or on-site. Contact us for more information or to arrange for a workshop.

HOW CAN WE HELP?

- Process development for base metals, precious metals, metal oxides, hydroxides & selenides.
- Fine powder technology (metals, oxides, hydroxides and ceramic powders, any size and shape.
- Process and plant troubleshooting.
- Technology transfer of FiMatCon Processes (Contact us for details)

WHERE CAN WE HELP YOU?

Mineral Processing

- Base Metals
- Precious Metals
- Oxide and hydroxide

HYDROMETALLURGY

- Leaching
- Precipitation
- Purification (Solvent extraction, IX, etc.)
- Process optimisation

POST PROCESSING

- Coating
- Dispersions
- S/L separation

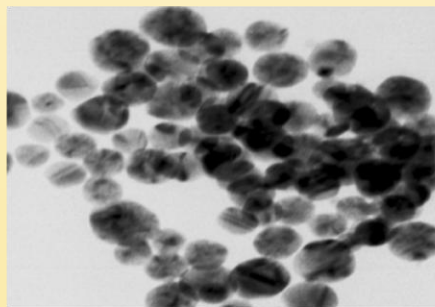

SERVICES

FiMatCon makes available to you our more than 65 years of combined product/ process development experience in hydrometallurgy, mineral processing and fine particle technology development from laboratory to industrial scale.

These services include consulting for

- Mineral Processing
- Hydrometallurgy
- Bio-Hydrometallurgy
- Product & Process development
- Process and Product Optimisation
- Plant Troubleshooting
- Solid-liquid separation
- Industrial fine powder process troubleshooting,
- Process optimization
- Specification development

Consulting
Support
Research

Drawing on knowledge and experience, FiMatCon helps clients move from issue to outcome, with pace, and certainty. Contact us to find out how we can help you in your product/process development and in your research initiatives.
